Menoufia, Egypt

Professional Summary

Motivated third-year Computer Science student at Menoufia University with a strong foundation in PHP, Laravel, MySQL, and Object-Oriented Programming (OOP). Passionate about backend development and experienced in designing and developing scalable web applications using Laravel. Skilled in MVC Architecture, Repository Pattern, RESTful APIs, Authentication & Authorization, Eloquent ORM, Livewire, database design, and Git/GitHub. Strong problem-solving abilities with a commitment to writing clean, maintainable, and efficient code.

Education

Faculty of Computers and Information, Menoufia University **Expected Graduation: 2027**
Bachelor of Computer Science *Third-Year Student*

Technical Skills

Programming Languages: PHP, JavaScript

Backend: Laravel, OOP, MVC Architecture, Repository Pattern, RESTful APIs, Authentication & Authorization, Eloquent ORM, Blade, Livewire, Middleware, Validation, File Uploads

Database: MySQL, Database Design, CRUD Operations, Relationships, Migrations, Seeders

Frontend: HTML5, CSS3, Bootstrap, JavaScript, jQuery, Responsive Web Design

Tools: Git, GitHub, Composer, Vite, VS Code, MySQL Workbench, phpMyAdmin

Projects

Hospital Management System | Laravel, PHP, MySQL, Livewire, Tailwind CSS, Vite

- Developed a scalable hospital management system using Laravel and Livewire.
- Implemented secure role-based authentication and authorization.
- Built modules for patients, doctors, departments, appointments, laboratories, radiology, billing, insurance, and multilingual support.
- Applied MVC Architecture, Repository Pattern, Eloquent ORM, and optimized MySQL database design for maintainability and performance.

School Management System | Laravel, PHP, MySQL, Livewire, Bootstrap

- Developed a comprehensive school management system for students, teachers, parents, classrooms, attendance, examinations, grades, fees, events, and online classes.
- Implemented authentication, CRUD operations, form validation, and optimized database relationships.
- Built responsive dashboards using Livewire and Bootstrap.

Invoice Management System | Laravel, PHP, MySQL

- Built an invoice management system featuring customer management and invoice generation.
- Implemented authentication, CRUD functionality, payment status tracking, and server-side validation.
- Designed normalized MySQL databases and optimized Eloquent ORM queries for better performance.

Soft Skills

Problem Solving • Analytical Thinking • Communication • Teamwork • Fast Learner • Time Management • Attention to Detail
